Transform Rhode Island Scholarship

Ellie Vest

"Let's put the power of opportunity in the hands of BIPOC teens across Rhode Island."

~ Ellie Vest
Moses Brown School

BIG IDEA:

Ellie's big idea is to partner with local businesses to create internship opportunities, which will be accessible in a convenient and user-friendly website and app. InternXRI will put internship opportunities directly in the hands of BIPOC teens across Rhode Island.

BIPOC teens throughout Rhode Island need experience, employment, and mentorships, which can be gained by participating in internship programs.

Internships help students create resumes, earn money, stand out to colleges or jobs, explore career possibilities, network, and more.

HOW WILL SHE DO IT?:

The app will bring the resources of Rhode Island's business, academic institutions, and art communities directly in the hands of students of color across the state.
