Tristan Boyns

Transform Rhode Island Scholarship

"In Rhode Island, many residents want to help, and many families need support, but too much friction has long stood between them. The RhodeReach app would become a statewide platform connecting residents with verified nonprofits, making donating and volunteering just a few taps away."

~ Tristan Boyns
Bishop Hendricken High School

BIG IDEA:

Tristan's big idea is to build RhodeReach, an app that connects Rhode Islanders with the nonprofits they need.

With just a few taps, users can donate or sign up to volunteer with verified local organizations, turning goodwill into action.

HOW WILL HE DO IT?

Tristan will partner with verified nonprofits and, through the RhodeReach app, give each organization the tools to manage volunteers, communicate needs, and receive donations, all in one place.

For residents, the experience is seamless: browse local causes, donate, or sign up for a volunteer shift without ever leaving the app.
