Transform Rhode Island Scholarship

“The Rhody Relief Van will open new possibilities for people who struggle with accessing the care they need and prove that wellbeing comes from more than just medicine.“

~ Abigale King
Cumberland High School

Abigale King

BIG IDEA:

Abigale’s big idea is The Rhody Relief Van. It is a mobile wellness unit that will provide Rhode Islanders with immediate mental health support.

Featuring free meditation sessions and therapeutic experiences, this project proactively reduces crises by bringing care, joy, and resources directly to local neighborhoods.

HOW WILL SHE DO IT?

The customized mobile unit will feature a calming space and will be staffed by a bilingual support team, including peer recovery specialists and community health workers, who will provide support, guidance, and much needed resources.

Designed by community artists, the van will be wrapped in vibrant artwork to reflect positivity both inside and out.
